### ELECTRIC CITY SPARKLETS

Items of Interest and Personal Mention Caught Over the Wireless on the Streets of Anderson

#### Profitable Trip Made in a Ford.

Messrs. J. J. Baldwin and F. M. Cooksey and W. S. Dwyer, roofing contractor, have returned from a trip into Georgia and Alabama. They went as far as Euflala, Ala., and visited Madison, Millidgeville, Cochran, Cordale, Albany, Warm Springs, Columbus, Atlanta, Winder and Royston, Ga. They made the trip of over 1,000 miles in Mr. Dwyer's Ford and had only one puncture and one blow out on the whole trip. The crops were good and the people between Atlanta and Anderson, every time the party would register at a hotel, began to beg for news of the extension of the electric line from Anderson. Mr. Baldwin said that the people all along the line are eager for it and will do all they can to get it. Some of these towns in this rich and fertile section have no railroad among them being Carnesville, a courthouse town. The trip was profitable as the tourists closed contracts for \$45,000 worth of work; let the contract for a \$20,000 building and supervised the construction of five buildings.

#### Voters in City Are Very Backward.

The Intelligencer has been requested by one of the club secretaries to urge the people of the city to enroll for the primary. This paper has day after day called attention to the facts and can do no more. If the people are too lazy or too headless this paper cannot be blamed after it is over. This secretary stated that in his particular ward he has the names of over 40 who voted last time and are not now enrolled and three of these are employed in one of the largest stores in the city. He suggests that the storekeepers follow the example of the mill managers and put up notices, as they have done, advising all employees to enroll and to vote.

#### Opens Campaign For Congress.

Col. Fred H. Dominick, candidate for congress from the third district and present assistant attorney general, has come to Anderson to establish headquarters for the campaign. He has made several speeches in the district, to introduce himself and will tonight at 8 o'clock formally open his campaign with a speech at the Orr mills. Mr. Dominick stated last night that he proposes to criticize his opponent's record, and to do it in a legitimate way, although as forceful as he can. His own record is open to review and criticism, but he intends to see that the campaign is kept within the bounds of proper criticism. Mr. Dominick says that he has received much encouragement in his race. His headquarters are at room 1 of the Chiquola hotel and he proposes to keep a phone and a clerk there all the time and to conduct the campaign on a business like scale.

#### But a Week In Which to Enroll.

The Intelligencer has been endeavoring to get some figures as to the enrollment in the democratic clubs in the county. There is but one week more in which a person may enroll. The first club to make a report is Pendleton, where there were 230 voters two years ago. The enrollment to date is 203. At Bishop's Branch three were 25 enrolled up to Saturday out of 40 votes polled two years ago. Without commenting upon the figures the attention of the public is called to the fact that but a few days remain.

#### B. Fleishman Has Appendicitis.

Mr. Sam Fleishman yesterday received a telegram calling him to Florence on account of the illness of his father, Mr. B. Fleishman, who was stricken with appendicitis Saturday and was operated upon Sunday. The operation resulted successfully. Mr. Fleishman is the proprietor of stores in several cities, the Florence store being the largest in the state. His friends in Anderson hope that he may soon recover.

#### Frazier Academy Enrolling Pupils.

Before leaving the city on his summer vacation, Dr. W. H. Frazier stated that he had received numerous applications for catalogues and that already he has enrolled a large number of pupils. He feels sure that the attendance this fall will be largely increased. The school promises to do the very best class of work and by the success which it will make next year, he feels sure that it become such an asset of Anderson that larger permanent quarters will be necessary.

#### Editors Liked Anderson College.

W. Thornley Walker, representing one of the big type founders of the country, was in the city yesterday. He states that in going about over the state he has heard of nothing from the editors except their visit to Anderson and Anderson college. He declares that this feature of the annual outing was a great treat to the visitors, especially the attention showed them by the ladies of Anderson, and the press of the state has now a changed and exalted opinion of the college and of its makers. The manner of operating the interurban trains was also a great treat to them and the visitors everywhere expressed great appreciation of the splendid work of Mr. E. Thomason, the general manager and his able force of assistants.

#### Col. Bill Miller Gone To Georgia.

Col. Bill Y. Miller of Slabtown and Abbeville, is in the city on his way to the mountains to rest for awhile, or as he puts it, to enjoy his "otium cum dig." Col. Bill says the country whither he is going, in Habersham county Georgia, is the most salubrious in the world, whatever that is.

#### HINDUS MUST GO OR GET SHOT-UP

Have Fought Deportation For Three Months, But Crisis Has Been Reached

Vancouver, B. C., July 20.—With the announcement that the Canadian cruiser Rainbow and a contingent of bluejackets reinforced by details from the cruiser Niobe, the situation regarding the Komatag Maru and her riotous Hindu passengers became very grave tonight. The Hindus, several hundred in number, have resisted deportation for three months. Early Sunday morning they repelled immigration inspectors and police officers who had tried to board the ship to quell a disturbance. In the fight a score of white men were injured. The Rainbow is expected to arrive after daylight and she will embark a contingent of the Irish fusiliers and the Duke of Connaught's own regiment. It is then intended to train the Rainbow's gun on the Komatag Maru and if the Hindus do not agree to removal from the harbor, bloodshed is believed inevitable.

#### Ain't It a Shame.

Atlanta, July 20.—Sweethearts in a shadowed porch are entitled to all the shadow they can get, and a flashlight played on them is a nuisance to be dealt with is the opinion of C. E. King, a young Atlantian who was calling on Miss Ethel Cates, of West 3rd street, last night. They were chatting around in the shadows when the rays of an electric flash began playing around them. King got up and went across the street and there found C. A. Bryant, a young man about his own age, with a flashlight in his pocket. The agreement was stopped by the interference of Bryant's father and then King went back and phoned for the police. Judge Broyles will render a decision on the rights and privileges of unintercepted courtship this afternoon.

#### Youngest Detective.

Atlanta, July 20.—The town of Cordale boasts of the youngest policeman in the United States. He is Charley Barry, aged 9, and he applied to Chief Sumner for a job. The boy claimed he could break up petty thieving and the chief smilingly told him to go ahead.

The home of J. H. Shipp had been entered and the chief told young Barry to get busy. Charley came back in three hours, dragging a negro boy who confessed to the crime. The young detective was bloody from bites the young criminal had given him, but he had stuck to his captive.

#### Notice to Voters of Bishop Branch

The book of the enrollment of Bishop Branch is at the store of E. Leg Owens, and the voters are asked to call and sign before July 28, as the time expires on that date.

### Micawber Wouldn't Shine as a Gymnast, Would He?

By MOSS.

YOU remember how Mr. Micawber, in Dickens' story, was always waiting for something to turn up. Said he to David Copperfield: "You are no stranger to the fact that there have been periods of my life when it has been requisite that I should pause until certain expected events should turn up. When it has been necessary that I should fall back before making what I trust I shall not be accused of presumption in terming—a spring. The present is one of those momentous stages in the life of man. You find me fallen back for a spring, and I have every reason to believe that a vigorous leap will shortly be the result."

Some Micawbers sit back in similar utter self complacency, waiting to leap upon the golden opportunities that their more alert neighbors really pounce upon in the advertising columns of this paper.

DON'T BE MICAWBER. Act PROMPTLY when you see bargains advertised here. Really LEAP upon them. You'll be surprised to find how much it PAYS. THOUSANDS OF OTHERS DO.

## PALMETTO THEATRE MONDAY'S PROGRAM

## BIJOU THEATRE TODAY'S PROGRAM

LUCILLE LOVE—Gold Seal. Series No. 12 of this remarkable serial story is more interesting than any before it. The recalcitrant servant complicates the situation in this number by more of his villainy. He is choked by Hugo and there is some gun fighting, with a strong amount of suspense involved. The scenes are of melodramatic character and end up with an exciting auto chase.

BESS THE DETECTRESS—Joker. A very laughable comedy.

FOURTH REEL TO BE SELECTED—Coming tomorrow "The House Dis-cordant" 2 reel Rex. Also "The Cash" Ford Sterling comedy.

Coming Thursday "The Million Dollar Mystery" series No. 2.

HOME OF YOUR OWN IS A HOME INDEED

REAL VALUE

FOR HOMES, SEE JOHN LINLEY AT FARMER & LINLEY'S

A gentleman who has seen many real estate developments on seeing North Anderson said: "I would not hesitate to buy a lot there, for it will surely enhance in value three times in the next five years."

Now, there is at least food for thought in what visitors have to say for North Anderson.

STATUE OF LEE AS A SUBLIME MEMORIAL.  
To Sculptor the Face of Lee 1200 Feet Above the Plains.

Atlanta, July 20.—One of the most stupendous ideas for a great Confederate memorial which could be conceived, that advanced by Col. John Temple Graves who thanks that State Mountain near Atlanta is the place. He urges that the people have cut in the side of the great granite mountain projection 30 feet wide and 100 feet deep, 1000 feet above the plain. Then he urges have Lorado Taft or some other great sculptor, carve upon the block a giant figure of a southern soldier in uniform, the face to be that of Robert E. Lee.

"And there," says Col. Graves, "twelve hundred feet above the plain let us place the old gray granite hat upon that noble head with its grand eyes turned toward Atlanta—Poebus and Phoenix—holocaust and miracle of the civil war—and from this God-like eminence let our Confederate hero calmly look history and the future in the face."
